In Lampasas Radio Studios

Libby & Warren Bluntzer visited the Lampasas Radio Studios this morning to visit with Angel Garcia about the upcoming Indian Artifact and Gem & Mineral Show this Saturday.

Warren describes attending the show as a 'walk through history' to see all of the artifacts, gems and minerals. Residents can bring in their items to be evaluated at the show to find out its origins.

The show will be at the Old Middle School Cafeteria at 107 N. Main St. in Lampasas from 9am to 4pm Saturday. Admission is \$8 for adults and children under 12 are free.

There will be a food truck, Girl Scouts selling cookies and handmade jewelry.

Suja Lane at 190E Under Construction

Suja Lane off of 190E on the other side of Kempner will be having reconstruction and drainage improvements completed through a project by the City of Copperas Cove starting this week.

The project consists of reconstruction of 1700 feet of roadway and associated stormwater drainage infrastructure for improved usage, safety, and mitigation of existing street flooding. The project will be completed in a manner as to allow minimal interruption to traffic flow. Should a temporary street closure become necessary, proper notice will be provided. All motorists and pedestrians are encouraged to follow posted construction signs for the safety of themselves and work crews.

Gas Prices

Winter Gas Prices

Over the weekend gas stations began selling the winter blend of gas, which will likely affect your spending at the pump.

Between May 1 and Sept. 15, gas terminals are required to use a less volatile and slightly more expensive blend of fuel, or "summer blend" gas. After that time, they can begin selling "winter blend" gas.

According to AAA, winter blend gas is cheaper than summer blend gas because it is able to contain more butane. Butane is less expensive compared to other gasoline ingredients but also helps your gas ignite in lower temperatures. However, this added butane makes the gas slightly less energy-efficient.

During this winter gas period, GasBuddy says, you may notice a price drop from 10 to even 30 cents per gallon, but you also might notice slightly lower gas mileage overall.

To mitigate this decrease in gas mileage, AAA recommends the following tips for getting the most out (*cont'd on back*)

A lower demand for gas during the winter months also contributes to a lower price per gallon.

Texas Employment

After continued growth through the month of August, Texas has once again set new records for the number of jobs, number of people employed, and size of the civilian labor force. . Since August 2022, Lone Star State employment grew by 402,000 positions and continued to outpace the nation in the rate of annual employment growth.

The number of employed persons grew by another 24,300 people over the month, raising the new record high to 14,489,000. The Texas seasonally adjusted civilian labor force grew over the month by another 33,500 people, raising the total to 15,111,900 and marking another record high for the state. The seasonally adjusted unemployment rate held at 4.1 percent in August, marking the fourth month at that rate.

"After 30 straight months of job growth, the number of employed Texans has reached more than 14.4 million," said TWC Chairman Bryan Daniel. "TWC supports the state's continued economic growth through programs like Jobs and Education for Texans and the Skills Development Fund, that help upskill the Texas workforce to meet employer demand."
